

ASSIGNMENT 6

MODERN WEB DEVELOPMENT WORKSHOP 1

(CSE2191) COURSE OUTCOMES- CO1, CO3, CO4, CO5

Learning Levels: Remembering(L1), Understanding(L2), Application(L3), Analysis(L4)

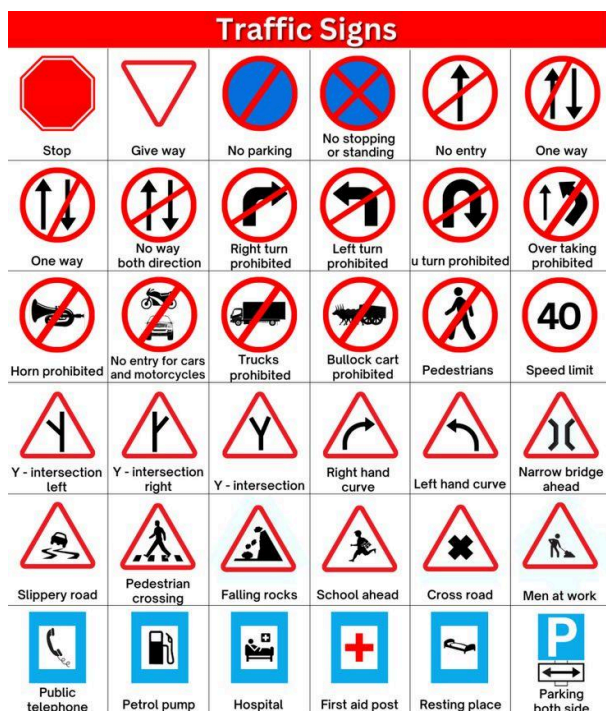

Name of the Assignment-> Introduction to Tables

Q No.	Question	Learning Levels
1	Create an HTML table for a Student Report displaying columns for Student Name, Roll no, Total Marks, and Grade. The Subjects column should span across three sub-columns labeled Physics, Chemistry and Maths. Make the first row as a header row and add a caption titled Student Report. Apply CSS styling to the student report table by including border, border-collapse, width, height, and padding to enhance the table's appearance. Set a distinct background color for the header row and a light color for each even row in RGBA format.	L1,L2,L3, L4
2	Create a table of students with columns: "Student ID", "Name", "Age", and "Grade". Use <colgroup> to set the width of the "Name" column to 150px. Use <colgroup> to highlight the "Grade" column with a different background color.	L1,L2,L3, L4

3

Design a webpage as "traffic signals" and create a table of ten rows and two columns, where one column will have images of traffic signals and another column will have a description of particular signal.

Hint: You can refer to the below image for the traffic signs. You can use any of the 10 signs.

L1,L2,L3,
L4

4

Create a table below Gender Classification. Apply CSS to it as mentioned below.

Religion	Gender classification				No. of Population (In %)
	Male		Female		
	Literates	illiterates	Literates	illiterates	
Hindu	30		30		60
	16	14	10	20	
Muslim	12		08		20
	06	06	05	03	
Christians	07		08		15
	05	02	06	02	
Sikh	03		02		05
	02	01	00	02	

L1,L2,L3,
L4

5	Design an HTML Page for Your Weekly Schedule. Add a heading as "My Weekly Schedule," using the caption tag. Create a table with two columns: one labelled as "Day" and the other labelled as "Activities," using the tag for the column headings. Fill in the table using the tag for the data cells. List the days of the week in one column and your daily activities in the other.	L1,L2,L3, L4
6	Create a Webpage with a Photo Showcase. Display five photos in a row (Use a table for the layout). Each photo should have a caption below it. Include a blockquote with a famous quote for each photo, and make sure the author's name is semantically emphasized using appropriate HTML tags.	L1,L2,L3, L4
