

**ITER, SIKSHA 'O' ANUSANDHAN
(Deemed to be University)**

Assignment

Branch	CSIT	Programme	B.Tech
Course Name	Modern Web Development Workshop 1	Semester	3rd
Course Code	CSE2191	Academic Year	2024-25

ASSIGNMENT - 7

Submission due date: 16/12/2024

Learning Level (LL)	L1: Remembering	L3: Applying	L5: Evaluating
	L2: Understanding	L4: Analysing	L6: Creating

Q's	Questions	COs	LL
1	Create a Vertical menu bar that sticks to either the left or right of the page. Additionally, make the menu bar fixed so that it remains in the same position even when the user scrolls down the page. Hint: To add scrollbar to the page, you can simulate longer content by adding padding at the bottom of the page using div	CO3, CO5	L1, L2, L3, L6
2	Create a feedback form with the following details: ○ Name (text input required with maximum of 15 characters) ○ Email (email input required, must be in valid email format) ○ Rating (radio buttons for 1 to 5 stars) ○ Comments (textarea) Note: Style the form with a nice layout using CSS.	CO3, CO5	L1, L2, L3, L6

3	Design a form that includes Checkboxes and Dropdown list. • Checkbox for a user to select their favorite programming languages. Include options for at least five languages, such as HTML, CSS, JavaScript, Python, and Java. • Additionally make a dropdown element with multiple values, to select the user's preferred programming language. Include at least 5 languages (e.g., JavaScript, Python, Java, C++, Ruby). Style each dropdown entry differently such as using different fonts, colors, sizes, etc. When the user hovers over an element a dropdown box should appear in that area of the page.	CO3, CO5	L1, L2, L3, L6
4	Create a Registration Page that features the SOA logo centered on the page, along with the form elements including text input fields, password field, an email field, a radio button, a dropdown list, and a submit button. Apply CSS to style each form element. Note: Password must meet the following criteria using Pattern attribute for validation: • At least 8 characters • Includes at least one uppercase letter • Includes at least one number • Includes at least one special character	CO3, CO5	L1, L2, L3, L6
5	Create a form for booking a flight with the following fields: • Name (text input) • Departure city (dropdown list) • Destination city (dropdown list) • Departure date (date input) • Return date (date input) • Number of passengers (number input) • Add a submit button.	CO3, CO5	L1, L2, L3, L6

Course Outcomes	By the end of the course, through lectures, readings, home works, assignments, and exams, students will be able to:	
	CO1	Understand the basic overview of the world-wide web, designing of a web page and its structure.
	CO2	Set up a system for Web Publishing and understand the knowledge of

		Wireframing.
	CO3	Apply the knowledge of HTML tags- Learn to write simple documents in the HTML language and create web pages.
	CO4	Able to design lists on the pages as well as paragraphs of text and learn how to link the web pages with hyperlink.
	CO5	Apply knowledge of web layouts with CSS to style, use images, tables and position elements on the page and design forms to make them responsive in the devices wherever using it.
	CO6	Evaluate theoretical knowledge and practical skills: Designing a responsive portfolio website. It encourages a comprehensive approach to designing, coding, and testing a responsive web project.

- ✓ *Assignment scores/markings depend on neatness and clarity.*
- ✓ *Plagiarized assignments will be given a zero mark.*
- ✓ *Submit the hard copy of your assignment by the due date, i.e. **16.12.2024***
- ✓ *Submit the assignment handwritten on A4 size papers and spirally bound to your MWDW1 class teacher. A front page must be present containing the details of the subject, the assignment and the student.*
